

TAKE ACTION RESOURCES

1. [Human Rights Data Analysis Group](#)
 - Nonprofit, nonpartisan organization that applies rigorous science to the analysis of human rights violations around the world.
2. [AI Toolkit for Racial Equity](#)
 - A toolkit that provides resources for using and understanding AI in the context of racial equity work.
3. [Gender Shades](#)
 - Gender Shades is an Algorithmic Justice League project that studies how well AI services track different faces. Their website contains an email where datasets from their studies can be requested.
4. [Hacking 4 Justice](#)
 - Hacking 4 Justice's trainings convene leaders from the SAO, experts from the data science field, and community members of all backgrounds to learn from each other, learn with each other, and build communities that are more self-knowledgeable, more prosperous, and more just.
5. [Data for Black Lives](#)
 - Data for Black Lives is a movement of activists, organizers, and mathematicians committed to the mission of using data science to create concrete and measurable change in the lives of Black people.
6. [AI Procurement in a Box](#)
 - A practical guide to using AI that helps governments rethink the use of AI with a focus on innovation, efficiency, and ethics.
7. [Just Data Lab](#)
 - The JUST DATA Lab brings together activists, artists, educators, and researchers to develop a humanistic approach to data conception, production, and circulation. Our aim is to rethink and retool data for justice.
8. [Algorithmic Accountability Policy Toolkit](#)
 - A toolkit that covers frequently asked questions about algorithmic systems as well as resources pulling from multiple fields, including Healthcare, Education, Criminal Justice, Immigration, and more.

9. [Mapping Police Violence](#)

- Mapping Police Violence is a research collaborative collecting comprehensive data on police killings nationwide to quantify the impact of police violence in communities.

10. [AFROTECTOPIA](#)

- A social institution fostering interdisciplinary innovation at the intersections of art, design, technology, Black culture and activism.

11. [Where Texting Brings People to Court Toolkit](#)

- A toolkit that pairs with the corresponding “70 Million” podcast episode. Includes resources to get started with reform projects like the text-based Court Reminder System in Palm Beach County.

12. [Ethics and Algorithms Toolkit](#)

- A toolkit that focuses on the use of AI in Government, specifically risk management algorithms, and how to be effective and transparent in their use.

13. [Data for Democracy](#)

- Data for Democracy is an enthusiastic network of individuals utilizing data to drive better choices and improve the world where we live.

14. [AI Blindspot](#)

- AI Blindspot provides cards on nine key oversights that can exist when using AI in any work, such as Privacy and Generalization Error.
